A brand new project of 65 homes offering apartments with 2 or 3 bedrooms and 2 bathrooms, and townhouses with 2 or 3 bedrooms and 2 or 3 bathrooms located in El Verger (Alicante), just a few metres from La Almadraba beach in El Verger and a few kilometres from Denia. This project challenges convention with the firm intention of turning the impossible into reality, creating a set of residential developments that aspire to form a sustainable, healthy, and respectful community. Always seeking the utmost respect for nature, the project is conceived with brilliant sustainable strategies: rainwater collection, channeling, and reuse systems that will give life to a lush sustainable ecosystem; refreshing gardens with native species that require minimal maintenance; large surfaces of photovoltaic panels for self-consumption energy generation; even multiple charging stations for electric mobile vehicles. Luxury is having everything you need...
